

Hope you are staying well. Below you will find a quick survey in regards to this summer's Vacation Bible School. With the current state of things, it is unlikely that we will be able to have an in-person VBS week like we normally do. Knowing how great of an experience the week of VBS is for all, we want to try something different this year to keep the tradition going strong, despite the challenges we are facing.

Please take the time to fill out the survey linked below so we can get an estimated headcount for those who would be interested in this option. Note: This is not registration for VBS. If we get positive feedback from the survey, registration will open up shortly after.
